The screenshot displays the Microsoft Azure Storage browser interface for the 'database7' storage account. The left sidebar shows the navigation menu with options like Overview, Activity log, Tags, Diagnose and solve problems, Access Control (IAM), Data migration, Events, Storage browser, Data storage, Containers, File shares, Queues, Tables, and Security + networking. The main content area shows the 'database7' storage account details, including the authentication method (Access key) and a list of file shares. The 'File shares' section is expanded, showing a single file share named 'database'. The file '09 SNAPSHOT (1).pdf' is listed with a size of 348.41 KiB. The bottom section of the interface shows the 'Properties' tab for the storage account, detailing resource group, location, primary/secondary locations, subscription, and disk state. The 'Data Lake Storage' and 'Security' sections are also visible, showing settings for hierarchical namespace, default access tier, blob anonymous access, and secure transfer for REST API operations.
