The image shows two screenshots of the Microsoft Azure portal. The top screenshot displays the 'Public' resource group, listing various resources such as Linux, Linux-ip, Linux-nsg, Linux-vnet, linux770, Linux\_DataDisk\_0, and Linux\_CsDisk. The bottom screenshot shows the 'Azure services' dashboard, which includes a 'Create a resource' button and links to various services like Virtual machines, Resource groups, Quickstart Center, App Services, Storage accounts, SQL databases, Azure Cosmos DB, and Kubernetes services. Below this, the 'Resources' section shows a list of recent resources, including 'Public' (Resource group) and 'Linux' (Virtual machine). The 'Navigate' section at the bottom provides links to Subscriptions, Resource groups, All resources, and Dashboard.
